# M82

### 80-lb Capacity OPL Dryer

#### **Standard Features:**

- 80-lb. capacity
- 22.4 cu. ft basket volume
- 270,000 btu/hr heat input, 1,700 cfm. airflow
- Radial airflow
- Steel door with gasketless glass
- 14" diameter vent connection
- Steel door with gasketless glass
- Fits through standard 42" door
- Available in gas and steam heat
- Reversing Basket

#### **Optional Features:**

- Stainless steel front, cabinet & basket
- F.S.S. (Fire Suppression System)

M82 OPL Dryer

### Why Purchase Milnor M82?

#### **Engineer Driven Design That is Built to Last**

Our dryers showcase an engineer-driven approach to design. Bearings are permanently lubricated on the motor and drive system. There are no chains used; rather, we use V-belts and pulleys for smooth, quiet, and trouble free operation. Our dryer cabinets are electrostatically powder-painted inside and out then baked at 420-degrees fahrenheit before final assembly-ensuring the hardest surface and the longest lasting finish in the industry.

#### **Rugged Steel Door with Gasketless Door Glass**

Our dryer doors are one solid piece of steel with gasketless glass. This eliminates the issue of glass falling out due to wear and tear on rubber gaskets that some manufacturers use to secure their glass. The security and durability that gasketless glass provides is essential to longevity.

#### Easy-to-Read, Multilingual Controls

We were the first to bring computer operated dryers to the market and today we continue to be a leader in applying technology to dryer operation. Our years of experience along with our accessible design, easy-to-read LED screens and our user friendly multilingual interface positions ADC as the pioneer in the laundry industry.
