Why Purchase Milnor?

- Larger cylinder volume than most competitive similar sized washer-extractors provides *greater productivity*. More linen washed per day, or fewer hours required to process. *BENEFIT: Saves labor.*
- Greater cylinder perforated-area generates *better wash* quality, *better rinsing* and *better extraction*. **BENEFIT: Better extraction saves dryer fuel.**
- Faster process times reduce fabric wear, promoting *longer linen life*! BENEFIT: Saves linen replacement costs.
- High perforated ribs provide excellent lifting.
 BENEFIT: Greater mechanical action leads to better wash quality.
- 200-G high extract provides excellent moisture removal. Lower extract speeds are available for uniforms, delicate textiles and blended fabrics. BENEFIT: Better extraction saves dryer fuel.
- E-P Plus Controller with back-lit LCD display allows operator to choose formulas from real words, not codes. Standard controller features English/Spanish (other languages optional). Controller also provides diagnostic and error messages. Shortens training time of new employees. *BENEFIT: Fewer operator errors.*
- Superior product support through local, highly-skilled dealers. BENEFIT: Faster repairs mean less downtime.
