

# On-premises drying tumblers

**Advanced computer controls let you program drying cycles with desired drying times, temperatures and cool-down. Then select the cycle with the simple touch of a button.**

## Model MDG120H

Get laundry done faster with huge-capacity on-premises drying tumblers. You'll save time and energy costs by drying more laundry at once. Not to mention saving on back strain. The extra-large door opening makes it easy to load and unload laundry all day. When your operation depends on a constant supply of clean laundry, Maytag® drying tumblers are right on the money. Plus, an added safety feature — the Sensor-Activated Fire Extinguisher (SAFE) System — automatically puts out fires while minimizing damage to your dryers and property.

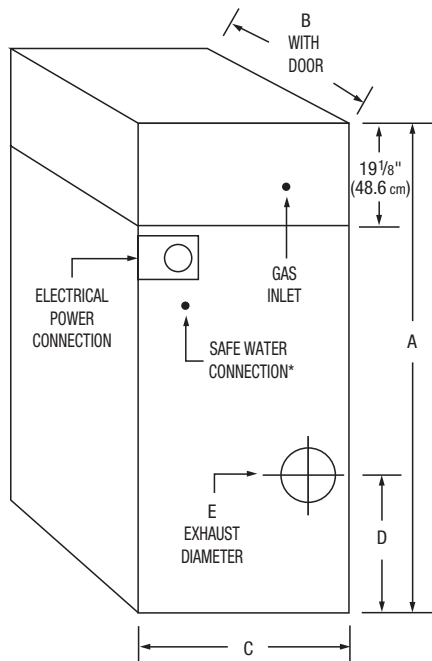

## microprocessor control

*Choose our 120-pound tumbler for maximum capacity!*

### For Your Operation:

- Auto cycle turns off the machine when laundry is sufficiently dry to prevent over-drying — and maximize energy efficiency.
- SAFE puts out dryer fires quickly and effectively. Sensors detect temperature changes; using minimal water, the system douses flames while rotating the drum, soaking the entire load.
- Programmable anti-wrinkle feature sets the dryer to continue in a cool-down mode after the cycle has finished for better results.
- Reverse tumbler feature turns tumbler one direction and then the other, keeping bulky items from twisting and knotting.
- Digital display shows time remaining in the cycle.
- Extra-large lint compartment holds load after load of lint accumulation.
- Easy-access design for convenient self-service.

# Model MDG120H

\*SAFE water pressure requires 40 psi  $\pm$  20 psi.  
Requires 1/2" water hose connection.

## Quality Features

### Extra-Large Door Opening

Designed to make loading and unloading laundry easier, especially bulky items like blankets and bedspreads.

### Handy Lint Compartment

Holds load after load of lint accumulation. When it does require emptying, front access makes the job simple.

### Heavy-Duty Enclosed Motor

Resists the effects of dirt, lint and other potentially harmful elements. Sealed bearings never need lubrication.

### Removable Top Section

The entire top section of Maytag® model MDG120H can be quickly removed to make installation much easier.

## Maytag® Limited Warranty

### 2 YEARS — All parts

For a period from the date of original purchase through the time listed above, the designated parts that fail in normal commercial use will be repaired or replaced free of charge for the part itself, with the owner paying all other costs, including labor, transportation and customs duty. Chemical damage is excluded from all warranty coverage. See complete warranty for details.
